

Pencil Drawing Course - Draw a Rose Materials List

You'll only need a handful of materials to complete this pencil drawing workshop.

We love using mechanical pencils because they stay really sharp and create fine lines, and we love mechanical rubbers because you can hold them like a pen and they can also create really delicate and fine highlights, but these are totally optional.

You can simply use whatever you have to hand.

We have links to products on our website for those are looking for better quality materials but haven't got the time to research them themselves. We hope that this is helpful.

Plain white paper. Printer paper is fine. Smooth paper is fine. Avoid watercolour paper as it may be too textured.
An HB regular pencil or a mechanical HB pencil. A soft 2B/4B/6B pencil.
A regular rubber or mechanical rubber.
A sharpener (and tub for shavings).
Kitchen towel.
